Austin, Texas 78711-3231

### SUMMARY

The Agricultural Water Conservation Grants Program funds projects that research, educate, demonstrate, and implement proven best management practices to conserve water and increase irrigation water use efficiency.

### DESCRIPTION

Grant topics vary from year to year to address current issues and topics in agricultural water conservation. The goal of these projects is to implement designated agricultural irrigation conservation strategies in the state water plan and to demonstrate best management practices that may save water or improve water use efficiency. For more information about this grant and access to other materials, including the grant application guide and checklist please visit: <http://bit.ly/1QygK9f>

### ELIGIBLE CANDIDATES

- 1) State agencies and University Systems
- 2) Political Subdivisions (groundwater conservation districts, irrigation districts, water improvement districts, river authorities, etc.)
