## Highway Bridge Program

SERIES I, VOL. 1

NOVEMBER 2016

### KEY FACTS

- ◆ **Agency:** TX Department of Transportation
- ◆ **Application Guide:** [bit.ly/1pfc0z0](http://bit.ly/1pfc0z0)
- ◆ **Award:** \$230 million in total awards
- ◆ **Contact Information:**  
Michael S. O'Toole, Project Development Section Director  
**Phone:** (512) 410-2240
- Mailing Address (For Postal Service):**  
Texas Department of Transportation  
125 East 11th St.  
Austin, TX 78701

### SUMMARY

The Highway Bridge Program (HBP) is a federal-aid program that provides funding to enable states to improve the condition of highway bridges through replacement, rehabilitation and systematic preventive maintenance. The Bridge Division is responsible for administering this program.

### DESCRIPTION

Bridge projects are selected and programmed in four-year cycles that run continuously. This means that each year, a new four-year program is established, made up of the previous three years of already programmed bridges, plus additional bridges now able to be programmed in the fourth year.

For more information about this grant and access to other materials, including the grant application guide, please visit: [bit.ly/24POn04](http://bit.ly/24POn04)

### ELIGIBLE CANDIDATES

Eligible structures for address under equivalent-match projects must meet the following criteria:

- 1) Meet the Federal Highway Administration (FHWA) bridge classification for deficient
- 2) Include main-lane cross-drainage structures and low-water crossings that do not meet the FHWA bridge definition but are deficient
- 3) The equivalent-match bridge or main-lane cross-drainage structure must be classified as deficient or be weight-restricted for school buses
