### SUMMARY

The Defense Economic Adjustment Assistance Grant Program (DEAAG), created in 1997, an infrastructure grant program designed to assist defense communities that are responding to or recovering from a reduction or termination of defense contracts, and those that have been positively affected with new or expanded military missions as well as qualified job retention.

### DESCRIPTION

Funding can be used for negatively and positively affected communities or for proactive projects that will increase the military value of the installation. Projects can include the purchase of Department of Defense property, new construction or rehabilitation of facilities in support of job creating projects and opportunities. Additionally, funds can be awarded to Public Junior Colleges or Texas State Technical College System for the purchase or leasing of capital equipment for the purpose of (re)training displaced defense workers.

For more information about this grant and access to other materials, please visit: <http://bit.ly/1peKLEM>.

### EVALUATION & SELECTION

These applications are scored on 10 general values (subject to change):

- 1) Project probability
- 2) Significance of project
- 3) Innovation
- 4) Cost per job
- 5) Cost per retained job
- 6) Percent of TMPC contribution
- 7) Federal project funding
- 8) Total other contribution project funding
- 9) Area unemployment rate
- 10) Previous DEAAG assistance

### ELIGIBLE CANDIDATES

DEAAG funding is available to local municipalities, counties, defense base development authority, junior college districts and Texas State Technical College campuses, and regional planning commissions representing these communities.
